Nurturing Program for Families 5-19™ (NPF5-19™)

The strength of Nurturing Program for Families 5-19™ is based on evaluating family's needs with the Adult Adolescent Parenting Inventory (AAPI). This built-in evaluation has a 33-year history of research. Families with children ages five to nineteen engage in both affective and cognitive learning. Families reach competencies through lessons that encourage and sustain attitudinal and behavioral change.

Nurturing Program for Families 5-19™ series includes: Facilitator Instructional Manual, Facilitator Resource Guide, and Family Workbook with the option to purchase the Infant, Toddler, and Pre-school supplement for parents with children of all ages.

Nurturing Program for Families 5-19™ is an evidence based, trauma informed and nationally validated family systems model that focuses on:

- **Bonding & Attachment**
- **Healthy Relationship Maintenance**
- **Emotional Regulation**
- **Healing & Recovery**
- **Empathy & Self-Awareness**
- **Sense of Belonging**
- **Self-Identity & Self-Worth**
- **Age Appropriate Expectations**
- **Dignified Discipline Alternatives**

PURCHASE

- Families interactively engage in learning new parenting perspectives, define their beliefs, increase their knowledge and skills which improve their overall functioning as adults and therefore become better in their role as nurturing parents.
- Can be utilized in group or a family setting, as well as an individual setting (home or clinic).
- The goal is always to serve from a family system perspective and can include as many members of the family as possible. A family who learns together is most effective in strengthening and sustaining healthy relationships.
- This specific program was created to be used with families and others in a co-parenting relationship (step, kinship, foster, adoption, grandparents, etc.). Designed for families involved in the prevention and treatment of Child Abuse and Neglect (CAN). Families served with this program may be involved in multiple systems of care, i.e. Department of Family Protective Services/Child Welfare, Mental/Behavioral Health Systems, Juvenile Justice Systems, Domestic/Intimate Partner Violence, Drug and Alcohol Use/Abuse/Recovery, School Districts, Head Start, Residential Centers and for Youth and Adult Correctional Institutions, just to name a few.

TRAINING OPTIONS To purchase this updated program, training is required!

Individuals who are wishing to become Nurturing Program Facilitators will need to attend the 18-hours Facilitator Certification Training through FNC-TX.

Existing Nurturing Parenting Program Facilitators that have already attended a facilitator training from a Family Development Resources approved trainer will need to attend a NPF5-19™ update training. Length of training will depend on your history with the Nurturing Program for Families 5-19.

NPF5-19™ update trainings are either 3-hours (for those that received the “Facilitator Training” from FNC-TX) or 10 hours for those that did not receive their facilitator training from FNC-TX trainers.

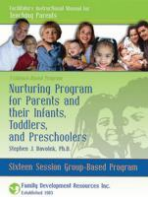

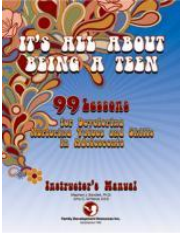

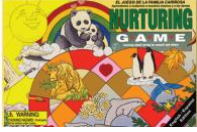

For additional recommended curriculum please visit Family Development Resources.
